

Ref: PP Strapping, Polyester Strapping, Metal Strapping and Kit

## ● POLYPROPYLENE STRAPPING

An economical plastic strapping that offers lower cost and easy handling. It is safe and easy to use and dispose of. The tensile strength or test (the number of pounds of force it will withstand before breaking) is lower than metal. Comes in two core diameters to accommodate different styles of dispensers.

### 300 LB. TEST PLASTIC STRAPPING

300 lb. tensile strength, 1/2" wide strapping. A good economy grade that provides secure protection for your products. Use with buckles.

| Core Size | Order No. | Ft./Roll | Lbs./Roll | 1-4 Rolls Price/Roll | 5+ Rolls Price/Roll |
|-----------|-----------|----------|-----------|----------------------|---------------------|
| 8 x 8     | 9000      | 22       |           |                      |                     |
| 16 x 3    |           | 4500     | 12        |                      |                     |
| 16 x 6    | 9000      | 24       |           |                      |                     |

### 350 LB. TEST PLASTIC STRAPPING

350 lb. tensile strength, 1/2" wide strapping for wide loads. Use with plastic buckles, wire buckles or metal seals.

| Core Size | Order No. | Ft./Roll | Lbs./Roll | 1-4 Rolls Price/Roll | 5+ Rolls Price/Roll |
|-----------|-----------|----------|-----------|----------------------|---------------------|
| 8 x 8     | 9000      | 23       |           |                      |                     |
| 16 x 6    | 9000      | 25       |           |                      |                     |

### 600 LB. TEST PLASTIC STRAPPING

Our strongest plastic strapping: 600 lb. tensile strength, 1/2" wide. For use with our hand tensioner and metal seals or buckles. Yellow for easy identification.

| Core Size | Order No.  | Ft./Roll | Lbs./Roll | 1-4 Rolls Price/Roll | 5+ Rolls Price/Roll |
|-----------|------------|----------|-----------|----------------------|---------------------|
| 8 x 8     | 35-600-88  | 7200     | 37        |                      |                     |
| 16 x 3    | 35-600-163 | 3600     | 19        |                      |                     |
| 16 x 6    | 35-600-166 | 7200     | 38        |                      |                     |

## ● STRAPPING KIT

STRAP-PAC kit includes 6000 feet of 300 lb. test, 1/2" wide plastic strapping. Includes a small disposable hand tensioner and 250 1/2" wire buckles.

| Order No.  | Lbs./Ea. | Price/Ea. |
|------------|----------|-----------|
| 35-99-3000 | 14       |           |

## ● MACHINE POLYPROPYLENE STRAPPING

White embossed machine grade strapping. Replaces steel in many applications. Replaces all brands of machine grade polypropylene and will operate on Polychem, Signode, Sterling, Strapex, Interlake, Strapack, Wilton, Dynaric, Mosca and Oval strapping machines.

### ● .20 1/2" POLYPROPYLENE STRAPPING

250 lb. tensile strength, 1/2" wide. Semi-automatic for use in table top machines.

| Core Size | Order No.  | Ft./Roll | Lbs./Roll | 1-4 Rolls Price/Roll | 5+ Rolls Price/Roll |
|-----------|------------|----------|-----------|----------------------|---------------------|
| 8 x 8     | 35-7204-88 | 9000     | 24        |                      |                     |

### ● .22 1/2" POLYPROPYLENE STRAPPING

350 lb. tensile strength, 1/2" wide. Automatic for use in arch machines.

| Core Size | Order No.  | Ft./Roll | Lbs./Roll | 1-4 Rolls Price/Roll | 5+ Rolls Price/Roll |
|-----------|------------|----------|-----------|----------------------|---------------------|
| 8 x 8     | 35-7224-88 | 9900     | 26        |                      |                     |

## ● POLYESTER STRAPPING

P.E.T. is a premium plastic strapping that will not tear or split. This strapping stretches less than polypropylene under high heat. It is stronger and doesn't lose its strength due to moisture. Will replace steel in many applications because the cost is lower, it retains tension better than steel with products that compress during transit, it doesn't cut or snap like steel and is lighter for easier handling. Requires metal seals, sold on page 36.

### 900 LB. TEST P.E.T. STRAPPING

900 lb. tensile strength, 5/8" wide strapping.

| Core Size | Order No.  | Ft./Roll | Lbs./Roll | 1-4 Rolls Price/Roll | 5+ Rolls Price/Roll |
|-----------|------------|----------|-----------|----------------------|---------------------|
| 16 x 3    | 35-901-163 | 2200     | 22        |                      |                     |

### 600 LB. TEST P.E.T. STRAPPING

600 lb. tensile strength, 1/2" wide strapping.

| Core Size | Order No.  | Ft./Roll | Lbs./Roll | 1-4 Rolls Price/Roll | 5+ Rolls Price/Roll |
|-----------|------------|----------|-----------|----------------------|---------------------|
| 16 x 6    | 35-601-166 | 7200     | 47        |                      |                     |

## ● METAL STRAPPING

Metal strapping is best for extremely heavy and rugged loads. It does not stretch and assures that the load will not slip or shift. All Rolls are approximately 100 lbs. Requires metal seals and metal strapping tensioner and sealer.

### 1200 LB. TEST METAL STRAPPING

| Size        | Order No.   | Ft./Roll | Lbs./Roll | 1-4 Rolls Price/Roll | 5+ Rolls Price/Roll |
|-------------|-------------|----------|-----------|----------------------|---------------------|
| 1/2" x .020 | 35-1200-163 | 2945     | 100F      |                      |                     |

### 1980 LB. TEST METAL STRAPPING

| Size        | Order No.   | Ft./Roll | Lbs./Roll | 1-4 Rolls Price/Roll | 5+ Rolls Price/Roll |
|-------------|-------------|----------|-----------|----------------------|---------------------|
| 3/4" x .023 | 35-1980-166 | 1700     | 100F      |                      |                     |
